Figure 5a

Figure 5b displays a multi-panel medical monitor showing cardiac data. The top panel contains three ECG waveforms labeled ECG1, ECG2, and EGM, each with a vertical scale from 0 to 1000. The ECG1 and ECG2 waveforms show regular sinusoidal pulses, while the EGM waveform shows sharp, narrow spikes. Below the waveforms is a horizontal timeline with time stamps: 10:05:42.888-1, 10:05:43.488-1, 10:05:44.044-1, 10:05:44.622-1, 10:05:46.200-1, and 10:05:46.777-1. The timeline is marked with 'A' (Atrial) and 'S' (Sensory) labels. Below the timeline is a table of cardiac parameters:

| Parameter | Value 1 | Value 2 | Value 3 | Value 4 | Value 5 |
|---------------------------|---------|---------|---------|---------|---------|
| Ventricular Rate (bpm) | 133 | 58 | 1027 | 58 | 59 |
| Atrial Interval | | | | | |
| AV Interval | | | | | |
| Premature Atrial Interval | | | | | |
| Return Atrial Interval | | | | | |
| Pulse Width (us) | 133 | 138 | 355 | 144 | 150 |

The bottom panel shows a summary of cardiac parameters with labels 46b, 47b, and 48b. The labels 46b and 47b are positioned above the ECG1 and ECG2 waveforms, respectively. The label 48b is positioned above the EGM waveform. The summary table is located at the bottom right of the figure.
